Germans Loot Norway Of Winter Clothing

STOCKHOLM, Oct. 20 (AP)

Dispatches from Norway said today the German governor, Josef Terboven, had issued a decree requiring Norwegians to hand over all tents, wind proof jackets, parkas, knapsacks, heavy sweaters and ski pants to the German army.

A penalty of three years in prison is provided for violation of the decree and only the Arctic district north of Narvik is excepted.

A previous decree required Norwegians to give up their heavy woollen blankets for German troops.

INTERNATIONAL WHEAT CONFERENCE

An International Wheat Conference now meeting hopes to divide up the world's wheat trade during this war and after the war, and to allocate certain quotas to export countries.

For my own part I do not believe that the best interests of Canadian wheat growers would be served by having their high quality wheat placed on an equal basis with the lower quality produced by other countries.

In any event, even if quotas are set, the high quality of Canadian wheat itself should warrant a much higher quota from this country than from others.

Certainly it seems then that from any point of view the high quality of Canadian wheat should not only be maintained by our farmers, but if possible improved.

Farmers, therefore, who are in doubt about the quality of their crops should first cut the variety best suited for their district, and then should secure a few bushels of the best Certified or Registered seed wheat, and sow these carefully on a few of their cleanest acres of summer fallow. This will then provide seed for a larger acreage the next year. If every farmer would do this simple and inexpensive thing the quality of Canadian wheat would soon go up with a bound.

THE WEEK IN EDMONTON

Establishment of a central nursing school to provide in the profession was urged by the Alberta Association of Registered Nurses on the special university investigation committee sitting in the Legislative Buildings. Dr. Robert Newton, acting president of the university, agreed that the matter was most important, and H. H. Parlee, K.C., committee chairman, believed the federal government might be interested enough to give financial aid.

The Alberta Teachers' Association submitted a brief urging the establishment of a faculty of education at the university. The faculty of education to have complete control over the training of high school teachers. On the same theme, a submission by the Edmonton Social Credit Constituency Association urged a four year course leading to a degree, with courses now taught in summer school providing credits.

Value Of Propaganda

New weapons and new methods of combat now used in the second world war, have brought many strange expressions into common usage. "Fifth column," "Molotov bread basket," "balloon barrage," and numerous other terms, unfamiliar before the present war, now appear quite naturally in the news columns of our papers and radio press bulletins.

One important weapon, however, has an old name into which events of this war have put a new and wider meaning. That word is "propaganda," and it has been introduced in its newest form by the highly publicized Dr. Goebbels.

Much has appeared in the news lately of the measures taken by the Russians in this regard. They have effectively disrupted German announcements, broadcast news of German losses in Russia, and otherwise harassed the rigidly controlled air waves of the Reich. There have been stories, too, of the brilliant "V for Victory" campaign launched by the British Broadcasting Corporation. Results of this clever piece of propaganda are recorded every day in uprising and unrest in the occupied countries. Vichy officials blame the unrest in France on this campaign, the full story of which will not be known until the people of the occupied countries have joined with the free democracies in the final destruction of Nazi-ism.

Use Other Methods

This, however, is only one way in which the B.B.C. is fighting and defeating Dr. Goebbels, just as effectively as the Royal Air Force is sweeping the Luftwaffe out of the skies. For twenty-four hours of every day the B.B.C. broadcasts authentic news and commentaries to every corner of Europe. These programs are given in all the European languages, including the dialects of isolated districts. That they are regularly heard in the occupied countries is known beyond a shadow of doubt, and this despite very rigid Nazi rulings and severe penalties for infractions of the verboten order. Through secret means, known only to the British Government, the B.B.C. has a very good estimate of the number of people who listen to these programs. Letters, too, reach Britain by devious ways, telling of the hope and courage these forbidden broadcasts bring. Countless numbers who are now in bondage, suffering from every form of persecution, are looking hopefully forward to the day of their deliverance from the Nazi yoke. It is to hear what they recognize as truth, that the oppressed peoples of Europe risk their very lives to listen to the British programs. It is beyond doubt that they must be greatly heartened to know that elsewhere in the world strong forces are working to bring about their release, and that they will see yet another "new order" in Europe based on freedom, and relief from all those who are now under Nazi domination.

For Final Victory

Particular effort is injected into programs which are broadcast to all classes of people in Germany, and that these programs are heard in the Reich is corroborated by no less an authority than the diminutive Dr. Goebbels himself, who goes on the air frequently to refute statements made in B.B.C. broadcasts.

In France it is commonly stated that there are three governments—Paris, Vichy and the B.B.C. And so, on this front as on many others, a strong and unrelenting attack is being made. When the final victory is reached, those who have carried on this unending task, will take their place with others who have taken the same task, and will be remembered with a deeper courage and a greater conviction than the Nazis could ever know, have brought about ultimate victory for the forces of freedom and democracy.

Story About Illinois Railroad Clerk Reads Like Fairy Tale

Richard Grady, 73, of East St. Louis, Ill., retired railroad clerk, received a \$29.03 paycheck from the Illinois Central Railroad—38 years late.

Grady worked as a laborer for the railroad for fifteen days in 1903. But when he started for the payor to collect his money, high water kept him from the tinck. Four days later when he could reach the tracks, the payor had been moved.

He attempted to collect from the railroad but had lost his claim ticket for the money and didn't get the check. Last summer, after he had retired, he had an attorney write the railroad. A checkup on the books showed he never was paid and the check was drawn up.

War Makes Many Changes

Dinner At Savoy Much Simpler Than In Peace Time

Noel Barber, in Overseas Daily Mail says: My mention of dinners reminds me that I did see at the Savoy one week the strangest menu they have probably ever had.

Sir Courtauld Thomson gave a lunch to the new Governor of Bermuda, Viscount Knollys. There was an imposing list of guests, whose names were printed on one side of the menu. And on the other side of the actual menu it consisted of only three words: Macaroni, Chicken, Sweet.

That was all. A good idea, too, except perhaps to the artistic head waiter, who took one look at the small slip of paper and muttered to himself: "I don't know why they don't just print 'Food'."

The point is, of course, that you get just as much food as you need, and far less indignation than you deserve—far less, anyway, than you would have got at the Savoy's old-time menu. It took up one use for a party given about 50 years ago by the Duke of Orleans in the same room as this week's lunch.

On that menu were 13 courses and six different wines. It was considered bad manners to miss a course in those days. . . .

From Bombed Wood

Harry Osborne, a commercial trolley of Woolwich, England, has made a fire engine of wood from bombed houses. It has two automobile wheels and an automobile axle, carries two extension ladders, four sandbags, a household water tank filled with water and many other fire-fighting devices.

The Heart Of Norway

The funeral of an R.A.F. pilot in Norway became an occasion for a demonstration of anti-German feeling as fishermen and farmers contributed to the cost of the funeral and women wept and men sang national songs.

Could Never Be Trusted

Food Sent To Europe Would Be Taken By Nazis

Here are some facts in one day's news that bear on the proposal of Mr. Hoover to feed the people of the occupied countries of Europe—his plea for the women and children who are in dire need:

Germany has been taking from France 14,000 head of cattle a month, much of the wine so essential in a land of impure water, all the reserves of cheese, potatoes, sugar beets, wheat and fruit.

Walter Funk, Germany's economics minister (that is, director of looting), was in Rome arranging with Italy for stripping the Ukraine of foodstuffs and other supplies and dividing up the spoils.

The German army in Rumania is now taking from that country its food reserves and clothing. Wearing apparel is so scarce that the price has skyrocketed.

Still, Mr. Hoover, with laudible purpose but with no relation to reality, continues to urge his plan. He talks of "safeguards." Can he really believe any could be devised that Germany would not get around or else just trample on?

If Germany will loot France of her own supplies when Hitler proposes to seek the collaboration of Frenchmen, why wouldn't he loot her of our supplies?

If Hitler will take food away from Rumania when Rumanians are fighting Germany's battles, what chance is there that he would respect signs saying that the food came from the United States, for which he has stated his contempt?

Finally, the arrangements going forward for the looting of the Ukraine show how consistently Germany pursues her policies. She is going to take what food she wants wherever it is found.—Milwaukee Journal.

Articles Of Clothing Worn By Hitler Smuggled Out Of Germany

Articles of clothing "guaranteed" to have been worn by Hitler have been smuggled out of Germany into Switzerland and Spain. The receipts have paid handsomely for the trophies.

This traffic in a notoriety's raiment is by no means new and accounts for the fact that a fair number of Napoleonic relics survive in museums all over Europe.

When a dictator dies national collectors become interested in his wardrobe. While buying the stuff in advance is always a gamble, the gamblers reckon that coming events are casting reassuring shadows before. Possibly they are waiting to disfect and display that jacket which Adolf thrust on to wear in the war was won.—Glasgow Herald.

An Effective Reply

Ministry Of Food Shows Goebbels United Kingdom Not Bankrupt

The British ministry of food announced it had made contracts with Argentina, Uruguay, New Zealand and Australia for 1,000,000 tons of meat. A contract with Brazil will be concluded shortly.

"This is the most effective reply to Goebbels' propaganda in South American countries that the United Kingdom now is bankrupt and cannot buy any more South American meat," a spokesman for the ministry said.

Gestures To Russians

The red flag of Russia flew over a British public building when R. Glave Sanders, mayor of Exeter, England, ordered the Soviet flag hoisted as the city assizes opened. The mayor said the flag was raised "as a gesture to the gallantry of the Soviet people."

An annual total of 7,000 fatal accidents occurs in the homes of England during peacetimes.

For Bomber Pilots

Special Prayer Used At Graduation Exercises In Ontario School

"I wish for you chaps good hunting," Air Commodore G. E. Brookes, O.B.E., told the first class of bomber pilots graduating at No. 16 Service Flying Training School, R.C.A.F., at Hagersville, Ontario.

One of the most impressive moments of the wings parade came when Flight Lieutenant J. W. Jennings, station padre, prayed for the bomber pilots. The prayer, he said, was written by an officer of the general list at the Hagersville school.

Author of the prayer Flight Lieutenant Jennings read was not identified. It had been composed especially for the first class and may be used at all succeeding graduations.

"Cast about these pilots, Almighty God, the sure fabric of Thy holy spirit, that they may be gentle in their strength, steadfast in defeat and humble in victory," the prayer went. "Toughen the fibre, we beseech Thee, of their individuality, to the end that, devoting themselves wholly to their duties in Thy service, they be not lonely. Comfort those whom they leave behind, bring them back more full of Thy strength when Thy time of violence has passed away and we have peace."

SELECTED RECIPES

Pies! England had them first. A flaky, thick crust, topping a delicious, nourishing one-dish meal which consisted of meat, vegetables, gravy and seasonings made up the original pie as it was served in England centuries ago. The meat or chicken pot pie of to-day is a modern version of this early entree.

The traditional apple pie was developed many years later. The famous fruit pie, and some others, long have been looked upon as "firsts" in desserts. Lemon, chocolate, custard and countless other fillings have been perfected over a period of time, until to-day we find Webster defining a pie as "an article of food consisting of a pastry crust with any of various kinds of fillings."

APPLE PIE MODERNE

6 cups corn flakes
(1 1/2 cups fine crumbs)
1/2 cup butter
1/2 cup sugar

1 quart pared, sliced apples
1/2 cup sugar
1 teaspoon cinnamon
2 tablespoons butter
Roll corn flakes into fine crumbs. Melt butter, add sugar gradually and mix with crumbs. Reserve 1/2 this mixture; press the rest evenly over bottom and sides of pie pan.

Fill pie shell with apples; sprinkle with 1/2 cup sugar mixed with cinnamon. Dot with 2 tablespoons butter; sprinkle remaining crumbs over top and bake in moderate oven (350 degrees F.) for 1 1/2 hour, reduce heat to 300 degrees F. and bake one hour longer, until apples are tender. Yield: One 9-inch pie.

Demand Her Rights

Woman Held Up Express While She Finished Her Breakfast

A woman passenger who demanded the right to finish her breakfast leisurely in a dining car held up the Pennsylvania Railroad Chicago-New York express train for 13 minutes. Trainmen wanted to shift the diner to a siding in the Harrisburg yards and take on a new car. The passenger refused to budge until she had finished her bacon and eggs. Baffled but discreet, the crew waited.

What Plan Means

National Church In Germany Would Supplant Those Now Existing

The Christian Science Monitor published the abstract of an alleged Nazi plan for a national church to supplant existing churches in the Reich and "annihilate" Christianity. The Monitor said that the scheme was advanced by Alfred Rosenberg, Nazi philosopher and policy-maker, but that this did not necessarily mean it would be carried out.

The Rosenberg version of N. R. (National Reichskirche) would be formed along military lines with the sword the symbol instead of the cross and "Mein Kampf" the credo instead of the Bible, the Monitor said. All other churches or religious orders would have to leave the Reich and there would be a strict ban on any religious group holding or receiving property.

There would be no priests, clergy or scribes in the new order, the Monitor's version related, and only Nazi party doctors would have the right to speak in the churches, which would remain only in the architectural sense.

Sheep-Dogs On Payroll

Work Without Orders On Great Western Railway In Wales

The Great Western Railway (reports a correspondent) has 25 sheep-dogs on its pay-sheets in Wales at places where sheep often break through the fences, not only endangering their lives but delaying the trains' progress.

The dogs, working without orders, find obscure openings in fences through which to shepherd the flock back. They learn to develop "line sense"; if they are caught between trains on adjacent lines they lie down until both have passed.

If maintenance men, working on the line, do not heed the noise of an on-coming train the dogs bark at them and refuse to leave until the last workman is out of the way.—Manchester Guardian.
